-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM  
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species
- 1: therapeutic agent is formed with the cover
  - 2: therapeutic agent is coupled to the cover surface
  - 3: therapeutic agent is formed with the absorbent
  - 4: therapeutic agent is coupled to the absorbent surface
  - 5: therapeutic agent is positioned within the reservoir

In the event that applicant elects any one of species 1-5, applicant is required to further elect:

- Subspecies
- 1 – therapeutic agent is a liquid
  - 2 – therapeutic agent is an emulsion
  - 3 – therapeutic agent is a solid
  - 4 – therapeutic agent is a semi-solid
    - a) therapeutic agent is a gel
    - b) therapeutic agent is an ointment
    - c) therapeutic agent is a salve

2. The application contains claims directed to the following patentably distinct species of the claimed invention:

The pending claims recite several groups consisting of materials suitable for the therapeutic agent (i.e., aspirin, Lidocaine, Diltiazem, Dofetilide, Terbutaline, nitroglycerin, Celecoxib, vitamins, etc.). The applicant must identify which group of materials to prosecute.

The pending claims recite several methods in which the therapeutic agent is delivered to the labia of a wearer included by pressure, melting of a solid, melting of a semi-solid, and rupturing a capsule. The applicant must identify which method to prosecute.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 42, and 55 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 3761

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Randall Fieldhack on 4/1/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
